Can You Identify This Aircraft?

Send your Answer to webmaster@eaa203.com.
The answer will be in Next Months Hangar Talk

Find the Air Speed Indicator

Hidden somewhere within the pages of this newsletter is an ASI  similar to the one shown here (may be smaller). All you need to do is find the page on which it appears, specify the article or photo and send to webmaster@eaa203.com to win.

One Winning Entry will be selected from those submitted and their prize awarded at the **June** meeting on Saturday.

The ASI was on page 3, "Last Month's Aircraft" and could be found as the tailwheel.

Bill Lumley identified the Aircraft last month as a Talorcraft.

Calendar of Events

June 2017

10 — June Meeting at F45

July 2017

8 — July Meeting at F45

24-30 — AirVenture 2017

Breaking News

Unlocking the World of Flight

It was a picture perfect day. Sunshine and no wind to speak of. An unseasonably warm February day, the first sign that perhaps winter's grip was finally loosening. I had just returned from taking one friend flying and was preparing to take another up when something caught my eye.

Standing just outside the fence, staring in through the chain-link, were a man and a woman who looked to be about 20. Not sure what they wanted but with a vague idea in the back of my mind that this scene was somehow familiar, I approached them and asked if they were looking for someone or needed anything. "No," they answered hesitantly, as though they weren't sure they should be there. I was beginning to detect a look of wistful longing in their faces that answered my question almost even before I asked it. "So what brings you here?"

"Well, we saw there were cars here and we saw the airplane and," was the reply.

Ah, so that was it! Yes, I recognized that look. It's a beautiful day, spring fever is beginning to kick in, you've got a budding interest in aviation so where do you go? To the airport of course! But where at the airport? It's a big place, surrounded by a seemingly impenetrable fence. Sure, you can stare through the fence all day

long watching airplanes take off and land. You never tire of it. But sometimes, you wish there was a way through that fence. A way to see an airplane up close, to somehow find your way into the cockpit and perhaps from there, into the air to experience flying for yourself! You long to find out more, to understand this fascinating but mysterious world of flight. What is the key that will allow you through the fence to unlock this new world?

Yes, I know the feeling. I've been there myself, once upon a time.

"Should we leave?" they asked. "No, no!" I answered. "Come on over to the door, I'll let you in." Their faces lit up like the summer sun.

"Wow! There's so many airplanes in here!" they exclaimed as they stepped inside the hangar. Like kids in a candy store, they stared open-mouthed.

During our brief chat, it didn't take long to discover that both of them had more

than a little interest in aviation. They were bursting with questions. And yet, neither of them had ever been up in a small plane before! I wanted to offer them flights right there on the spot but I had promised my friend a flight and daylight was fading. I was determined that I would get them in the air one way or another so I got their names, Will and Marlee, and contact info and promised to be in touch...

Last Month's Aircraft Identification New TIG Book

Taylor Cub

Passenger Capacity 2

Maximum Bag 72 lb

Engine: Con. A-40-2 /37 HP

Fuel 80/87 Octane Min. Maximum Weight 970 lb

Engine Limits 2550 rpm (37 HP) Fuel Capacity 9 Gal

Oil Capacity 4 Qt. Weight C.G. Range Normal(970 lb)

Airspeed Limits Normal(65 mph)

<http://www.taylorcraft.com/cub.htm>

Our own Vice-President, Spencer Gould has authored a new book available on Amazon called, "TIG Welding: GTAW need to know for beginners & the DIY home shop".

https://www.amazon.com/dp/B06ZZCLYHY/ref=sr_1_1?s=digital-text&ie=UTF8&qid=1492654317&sr=1-1&keywords=B06ZZCLYHY

The book sells for \$2.99 as a download for Amazon Kindle or \$7.99 as paperback.

Hangar Noise

By Joe Scaglione

Board Meeting was held with the following in attendance: Bill Siegel, Bill Perry, Rick Golightly, Bud Smith, Kevin Sheely and Joe Scaglione.

Treasurer's Report:

\$29,683.27 in checking, \$5469 in savings.

Discussion:

Donations to worthy causes. First we had a young eagle who flew a few months ago whose name is Noah. He and his family are on a walking trip with a goal to cross the country on foot. Noah started in Key West and is, as of this writing, in Missouri.

The idea behind this is to bring attention to Juvenile Diabetes. The board has deemed this to be a noble task and has passed a resolution to donate \$1000 to the cause. You can follow Noah's march on you tube. And remember he is our young eagle.

The chapter will also be sending some checks to our friends in Belle Glade who gave us unparalleled support at our event this year.

The last membership meeting was a huge success. It was a presentation from TRACON done by our friend Dana Bunch. He will be helping us get future events, mostly young eagles, done in the event of Presidential TFR's. His presentation was a video.

Programs for future membership meetings were discussed but nothing was scheduled.

Directions & Meeting Place

MAY MEETING at HANGAR. The next EAA Chapter 203 meeting will be held at North County Airport at **9:00 AM, Saturday, June 10th, 2017**. The next meeting will be at the EAA Hangar located at the junction of the Beeline Highway (SR710) and PGA Blvd (SR786) go 2.6 miles NW; turn left at the airport sign, and cross the train tracks. Follow the road to the hangar, which is on the left-hand side before you get to the FBO.

Young Eagles

curious how airplanes even work. You might even dream about being a pilot.

If you're nodding your head "Yes" and are between the ages of 8 and 17, you're ready to take a free Young Eagles flight and see what real pilots do on the ground and in the air.

Since 1992, more than 1.9 million Young Eagles have enjoyed a flight from EAA's network of volunteer pilots.

For more information contact Rick Golightly, rick@eaa203.com.

Ever wondered what your neighborhood looks like from the sky? Or maybe you're
